

**Notice on Modules Planning
AY2009-10 Semester I**

CORS SETUP FOR PSYCHOLOGY MODULES

Modules	Student Group	From Round	Module Type Code
PL1101E	FASS students	1A	01 Essential
	Non-FASS students	2A	U9 Electives outside student's faculty
PL2131 – PL2132	PL majors	1A	01 Essential
	FASS students	1C	27 Unrestricted elective outside major
	Non-FASS students	2A	U9 Electives outside student's faculty
PL3232 – PL3254	PL majors	1A	05 Elective
	FASS students	1C	27 Unrestricted elective outside major
	Non-FASS students	2A	U9 Electives outside student's faculty
PL328X Lab Modules	ARS3, SOC4 and ARS4 PL majors	1A	05 Elective
	Other PL majors	1C	27 Unrestricted elective outside major
Level-4000 Modules	SOC4 and ARS4 PL majors	1A	05 Elective
	ARS3 PL majors	1C	28 Honours module for students not in honours year
Level-5000 Modules	To register manually. Refer to http://www.fas.nus.edu.sg/psy/undergrad/std_under.html → Notices → Honours Year Matters for instructions and form.		

IMPORTANT THINGS TO NOTE

- All appeals must be sent through CORS.
- Do not send repeated appeals for the same module if the initial appeal has been declined.
- The department is unable to interfere with the bidding process to admit students. If a module is fully subscribed, students could either (a) continue to monitor the bidding queues and place bids should vacancies arise, or (b) bid for modules that are still under-subscribed. Bear in mind that the likelihood of getting into fully subscribed modules, especially after CORS has ended, is negligible unless the module is required for graduation.
- A student who is supposed to be in a particular year of study, but whose student status shows that she is one year behind may not be able to select certain modules for bidding. For example, if a module is opened to ARS3 students in Round 1 and ARS2 students in Round 2, a student in her third year of study, but whose status shows as ARS2, will not be able to access the module in Round 1. In such instances, the student should appeal via CORS as soon as possible and indicate the module(s) that she would like to select. Up to 5 modules may be listed in the appeal. The Department will then grant bidding access for the module(s). A student who has appealed to the Department to grant bidding access should not select the module(s) for bidding on her own. If she does, then the CORS system will not allow the Department to grant bidding access for the module in an earlier round than the student's status permits.
- FASS undergraduates may be allowed to use, in lieu of their level-4000 modules, a maximum of 2 level-5000 modules (subject to department's approval and module pre-requisites, if any) to fulfill graduation requirements. No level-5000 ISMs or level-6000 modules will be opened to undergraduates. This limit was imposed from Semester 1, AY2008-09 onwards to all students regardless of cohort. Students who have read more than 2 level-5000 modules prior to Semester 1, AY2008-09 will be allowed to use the excess level-5000 modules read to fulfill their graduation requirements.

6. Level-5000 modules will not be available for bidding in CORS. Students who wish to read level-5000 modules should refer to http://www.fas.nus.edu.sg/psy/undergrad/std_under.html → Notices → Honours Year Matters for the instructions and form.
7. The department has decided to exempt PL Majors who completed SC2203 during or before AY2006-07 from taking PL3235. Such students must take another module in replacement of PL3235 to fulfill the subject major requirements of Psychology. SC2203 will then be treated as an Unrestricted Elective. If you are affected by this exemption, then you must write to psybox1@nus.edu.sg to ensure that the department records are updated and that there will not be a problem when you file for graduation.
8. Students should refer to the website of the Department of Psychology at <http://www.fas.nus.edu.sg/psy/> regularly for updates on module matters.
